

## How to Get Your web3name via Sporrان

In order to claim your web3name, you need a Sporrان wallet and a DID.

If you don't already have these, follow our guides to [setting up Sporrان](#) and [getting a DID](#).

Once you have your Sporrان and DID, you're ready to go.

### Payment options

There are two ways to pay for your web3name – with KILT Coins, or using the Checkout Service and paying via Paypal.

Getting a web3name using KILT Coins requires a deposit of 0.1181 KILT and a small transaction fee (currently around 0.0047 KILT), so it is recommended to have at least 1 KILT in your account before you proceed. If you decide to delete your web3name later the deposit will be refunded to the account that it was paid from.

Getting a web3name using the Checkout Service costs a nonrefundable service fee of EUR 1.<sup>20</sup> (including VAT). This fee is paid via PayPal, which may also provide options for paying in other currencies.

## Claim Your Name

To start, open your Sporran extension.

Click “Create web3name”

Create your unique web3name using a combination of these characters and numbers: lowercase a to z, 0 to 9, “-” and “\_”

When you have created a web3name that is available, select your preferred payment method:

- Pay with KILT
- Use Checkout Service and pay with PayPal

## Pay with KILT

In Sporrán, select “Pay with KILT”

Click “CONTINUE”

Sign the transaction for your web3name.

This will start the process of anchoring your web3name on the KILT blockchain.

If you want to watch the process, which normally takes less than a minute, click “Check Status on Subscan” to follow the progress on-chain. If you click “OK” the pop-up will disappear, but the process will continue in the background.

The next pop-up will confirm that the name has been created. Click “OK”

Congratulations, you now have your unique web3name!

You will now be able to see your web3name in your Sporrán next to “Manage web3name”

## Pay with PayPal

If you prefer not to pay with KILT, the Checkout Service provided by KILT partner BTE interacts with the blockchain for you: You can pay for this service using PayPal.

In Sporrán, select “Use Checkout Service and pay with PayPal”

Click “Continue”

Enter your password and click “Sign” to sign the transaction.

You will then be directed to the Checkout Service website.

When you are ready to proceed, tick “I agree to immediate processing of the Checkout Service, and am aware that this ends my right to revoke the Service.”

Services - Claim your web3name

## Claim a name as unique as you

With KILT you can build your identity in a secure way.

Once you get your DID, you can customize it with a unique easily-readable web3name.

You can then link this name with your SocialKYC credentials and use it to sign with DIDsign, adding extra layers of verification and trust.

You can also link your web3name with addresses across multiple blockchain ecosystems.

Purchase Process

Sporran transaction signed

For account address:

4p6ffq7YfwjF7q1ZwY4kRoFVpYjwNcubffnSHBcuAHka1w6z

DID:

did:kilt:4pZGzLSybfMsxB1DcpFNYmqFv5QihbFb1zuSuuAT

web3name:

w3n:andreas

The Checkout Service executes your transaction for a web3name on the KILT blockchain. This Service is provided by KILT partner B.T.E. BOTLabs Trusted Entity GmbH. You can use PayPal to pay for this Service.

I agree to immediate processing of the Checkout Service, and am aware that this ends my right to revoke the Service.

Service fee (including VAT)

**EUR 1,20***or EUR equivalent, depending on your preferred PayPal currency*

By clicking the button below I also agree to the [Terms and Conditions](#) of the Checkout Services.

CHARGEABLE ORDER

Start the payment via PayPal:

Checkout Service:

© 2023 B.T.E. BOTLabs Trusted Entity GmbH

Read the Terms and Conditions. If you agree with them, click the button “CHARGEABLE ORDER”

This will activate the PayPal Button.

Click the PayPal button.

This will redirect you to PayPal to pay for your order.

When the order has been processed, the Checkout Service website will show

- The account linked to the web3name
- The DID linked to the web3name
- The new web3name

Checkout Service back to **KILT**

✔ Order complete

For account address:  
4p6ffq7YfwjF7q1ZwY4kRoFVpYjwNcubffnSHBcuAHka1w6z

DID:  
did:kilt:4pZGzLSybfMsxB1DcpFNYmngFv5QihbFb1zuSuuAT

web3name:  
**w3n:andreas**

Congratulations, you now have your unique web3name! You will now be able to see your web3name in your Sporrان next to “Manage web3name”

## Linking your web3name

Linking your account addresses to your on-chain DID and web3name is a personal and recognizable way to represent yourself across the Polkadot and (coming soon) Ethereum ecosystems. Any number of your account addresses may be linked.

**Note, don't link addresses that you don't want connected to your name! Information on blockchains is public, so if you want to keep an address private, don't link it.**

Follow our guide to linking account addresses [here](#).

Creating [SocialKYC](#) credentials, linking them and making them public adds an additional layer of information. This gives more information about who you are – particularly useful for validators or collators, increasing trust.

Follow our guide to creating credentials [here](#) and to linking credentials via GitHub public [here](#).

## The web3name directory

The [web3name directory](#) is a service that provides an easy way to look up KILT DIDs and their associated web3names and credentials. It also allows you to see if your preferred name has already been claimed – just enter it in the search bar. If there is no DID associated with it, it's all yours to claim!

Users can be searched by DID or web3name by:

1. Entering a web3name in the search field.

2. Entering a DID in the search field. Note, when entering a DID, always include did:kilt: before the letters and numbers.

Both ways show the web3name, associated DID, and any credentials publicly linked to it.

The credentials can be read by clicking "Fetch", as the data is stored in the service endpoint and not on the blockchain itself.

To create a URL for your web3name, just enter your web3name or DID in the search bar and copy the url. This URL will lead directly to your digital identity via the website.

## Creating a shareable link

To create a URL to make sharing your web3name easier, just enter your web3name or DID in the search bar and copy the URL it generates. This URL can then be shared and will lead directly to your digital identity via the [web3name directory](https://dev.uniresolver.io/) website.

Congratulations on being part of blockchain history by claiming your name!
